Dear Maarten

Thank you for your letter dated 06 January 2022 on Reviewing IDN tables for the IDN ccTLDs for security and stability of IDN implementation. I have forwarded it to the leadership of the ccNSO PDP4 Working Group, and requested them to ask the Variant Management Subgroup to consider if IDN tables should also be reviewed for a secure and stable design along with the applied-for string, as part of the evaluation for IDN ccTLD applications. I have also requested them to report their findings in due course, and will then inform the Board accordingly.

Best regards,

Alejandra Reynoso
Chair
ccNSO Council
