

Inclusion of Council reports and discussion papers on the ccNSO website

The secretariat noted that all preparatory material such as notes and reports, which are used for the ccNSO Council meetings, are not publicly available.

The secretariat suggests to start including this material on the website, as part of the recording of the ccNSO Council meetings, with the exception of the material that the Council designates as confidential.

The material will be included on this page:

<http://ccnso.icann.org/about/councilminutes.htm>, as a separate column.

Over time, the secretariat will populate the material from past meetings.
