

Patrick Myles ccNSO - ICANN60 Abu Dhabi, Nov 2017

Data in CENTR

Why bother collecting data?

Why we collect data

- To describe the market
- Allow organisational benchmarking
- Help members make informed decisions
- Efficiency through centralised resource

How

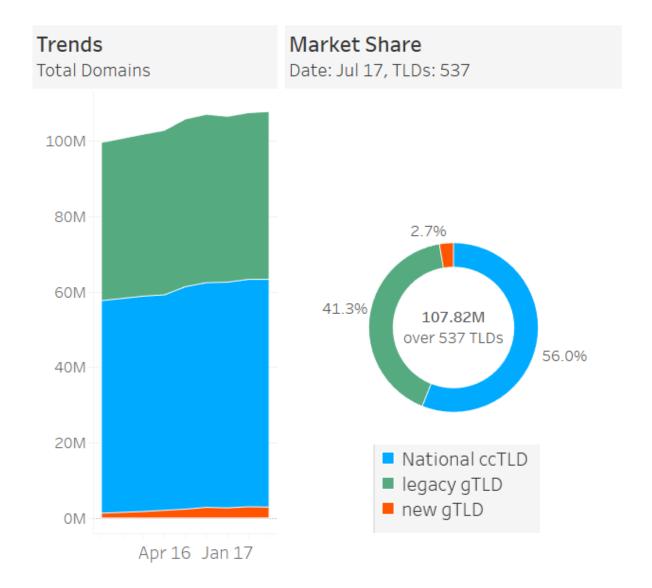

- Automated data feeds
- Member surveys
- Member v public

European Market: KPIs and trends

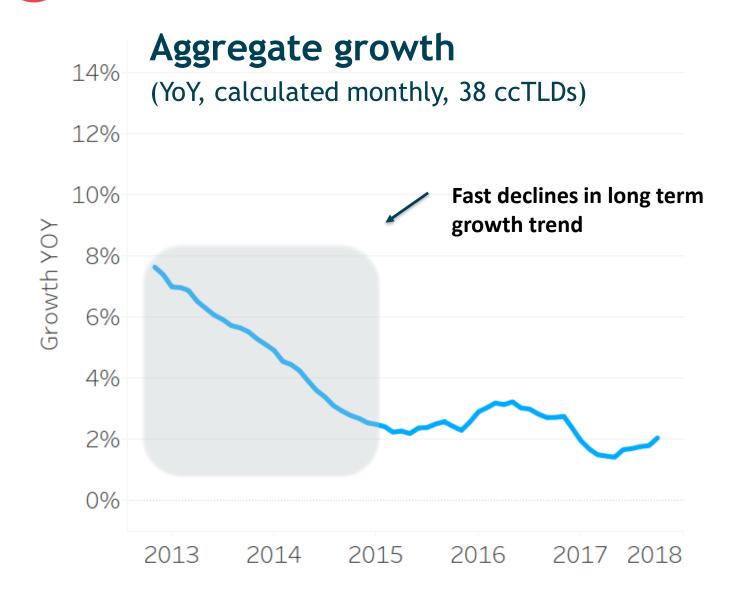

European ccTLDs: KPIs (Sep 16 - Sep 17)

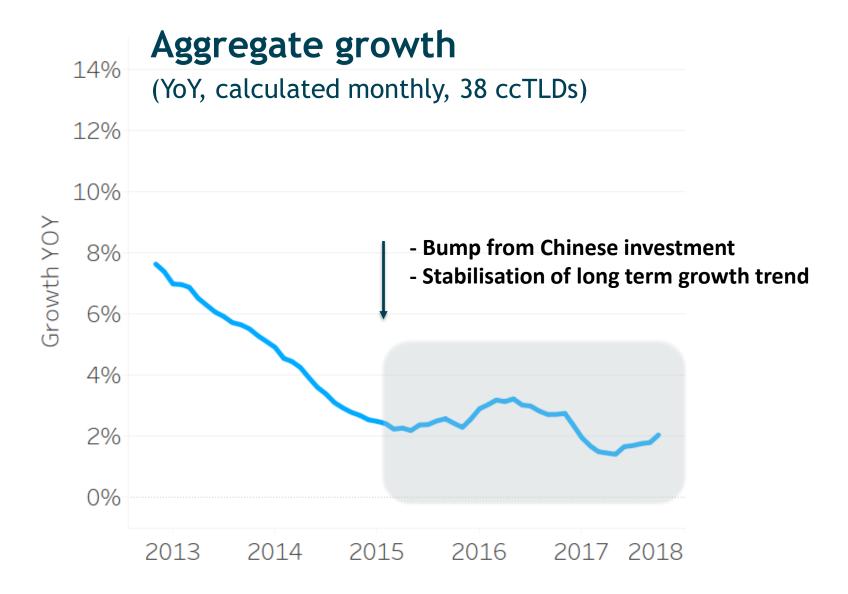

- Registration growth:
 - Stabilisation / flat trend
 - YoY growth: 3.0% median (5 grew over 10%, 4 contracted)
- Renewal rate: 80% (av.)
- ccTLD market share*: 56%
- Limited impact from new gTLDs
- Av price of 6-7 EUR (5 ccTLDs increased wholesale price)

^{*}based on analysis of registrant location of 107 million domains over 537 TLDs

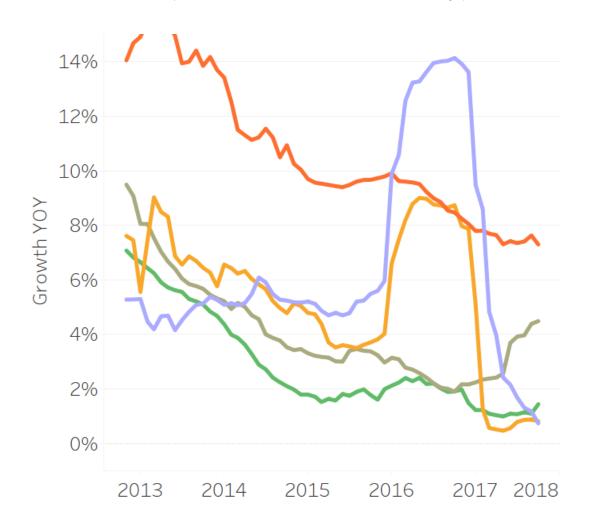

Trends

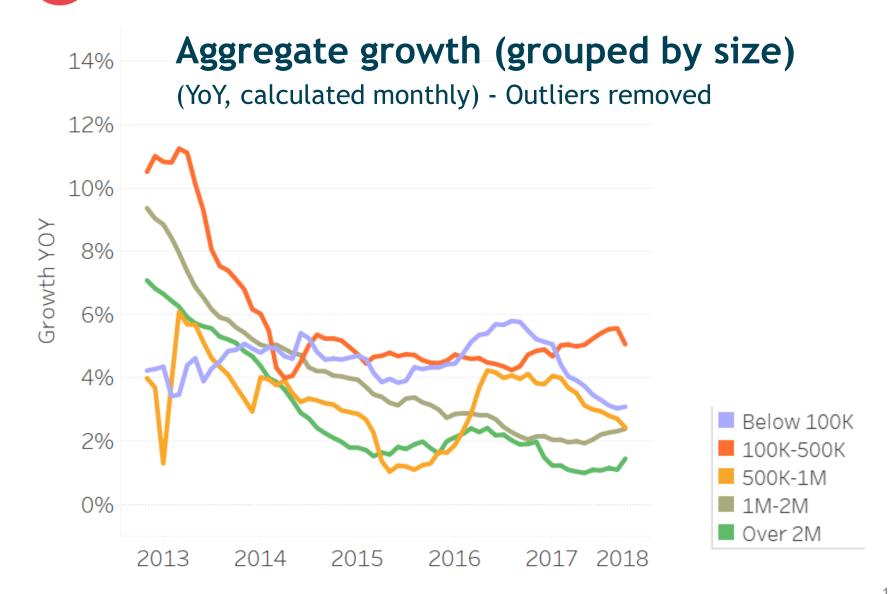

Aggregate growth (grouped by size)

(YoY, calculated monthly)

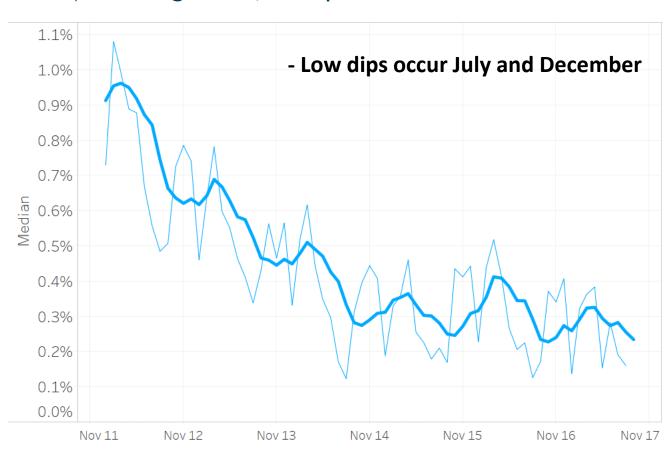

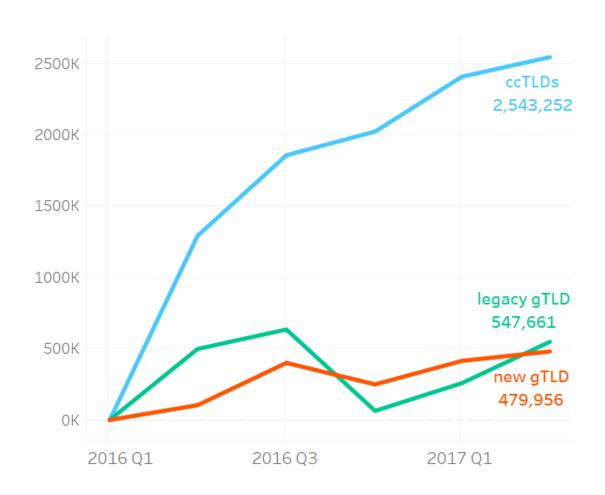

Seasonality

(Median growth, European ccTLDs

Market Share Trend (Europe)

Cumulative domain growth since Jan 2016 (35 countries)

Registrar co-operation

Registry Registrar Data Group

Current Participants:

Afnic, DENIC, Nominet, DNS Belgium, EURid, IIS, nic.at, SIDN, CENTR 1&1, Safebrands, GoDaddy, Knipp, OpenSRS, OVH, Nordreg

About the group

- Collaboration project between European registries and registrars to provide greater granularity of data on the domain market in Europe.
- 16 active registry and registrars (inc. CENTR) with regular meetings
- More details https://stats.centr.org/rrdg#about
- Parallel group: RDN focuses on technical elements of building a crawler, domain usage categories etc.

Key areas

- Registrar business models
- Industry and usage classifications
- Standardisation of registration definitions/methodologies
