Questions from ccNSO to the ICANN Board

- ⊙ What the community could do differently to help ICANN to optimize the budget spending?

- ⊙ In San Juan the ccNSO asked how the Board intends to ensure that a Board decision affecting an individual SO/ACs is communicated to the respective SO/ACs, including the background, expected timelines and expected impact on priorities and how the Board follows up on their own decisions. The example at eh time was the set of Board decisions with respect to the Emojis, following SAC 095. At the time It was agreed that a page with the detailed information on Board's decisions regarding the ccNSO would be created. Has anything been done in this area, and what is the respective URL?
