

About the ccNSO DNS Abuse Standing Committee (DASC)

Share information, insights and practices

Raise understanding and awareness

Promote open and constructive dialogue

Assist ccTLD managers in their efforts to mitigate the impact of DNS Abuse

DASC does not formulate any policy or standards: out of scope of the ccNSO policy remit

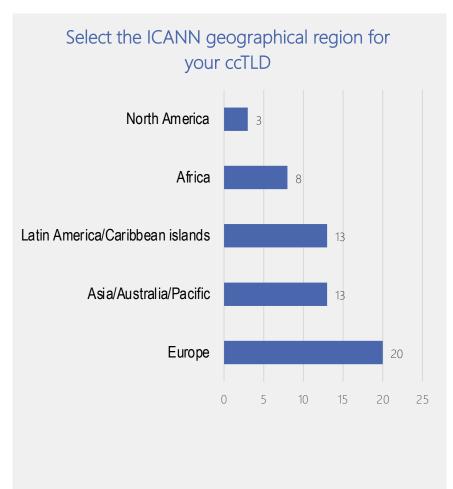

About the DASC survey

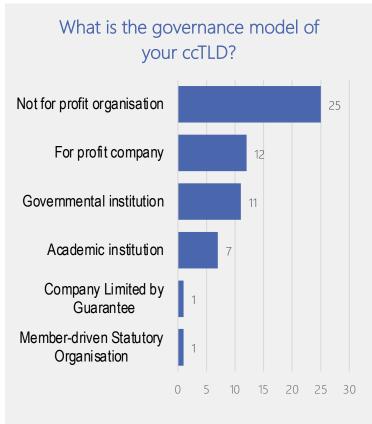

- Open: September '22 end November '22
- All ccTLDs were invited to respond, regardless of ccNSO membership
- 57 unique responses. Estimate: representing approx. 100 ccTLDs
 - 316 delegated ccTLDs in total (ASCII & 61 IDN alike)
 - Some ccTLD managers provide services for multiple ccTLDs, but responded for 1 TLD only
 - Some ccTLD managers informed DASC they could not respond, for various reasons
 - Some ccTLDs responded multiple times: latest submission as final one
 - Some responses were incomplete
- About half of the respondents did not want their ccTLD mentioned

subject to DNS Abuse. 35% was not sure

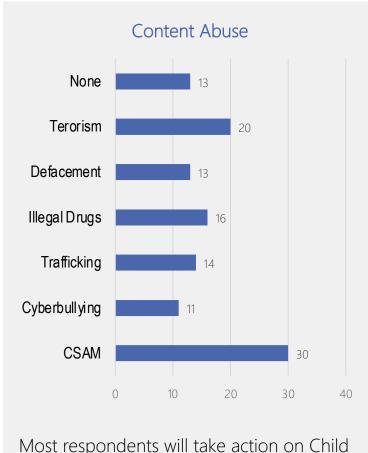

TYPES OF DNS ABUSE

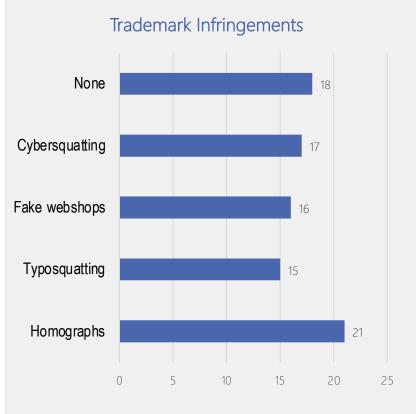

Where do the respondents take action?

and Pharming to be actionable, and Spam to a lesser extent.

Most respondents will take action on Child Sexual Abuse Materials.

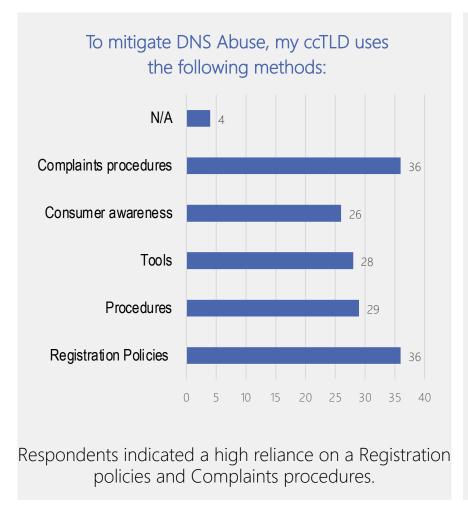

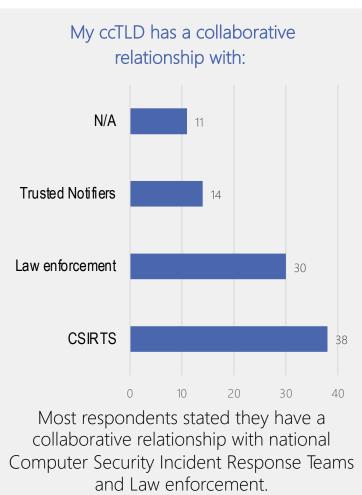

Most respondents will take action on homograph infringements. Some respondents indicated they never take action on the listed types of abuse.

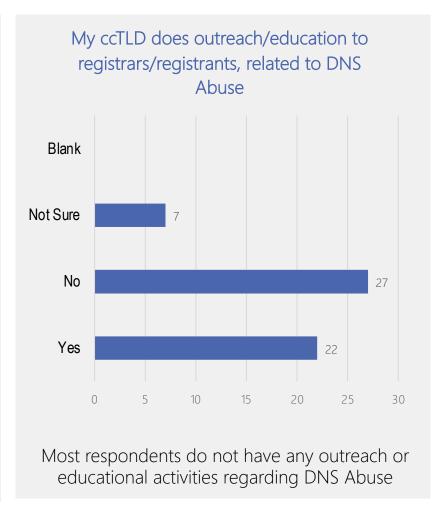

DNS ABUSE MITIGATION: TRENDS

What do the numbers say?

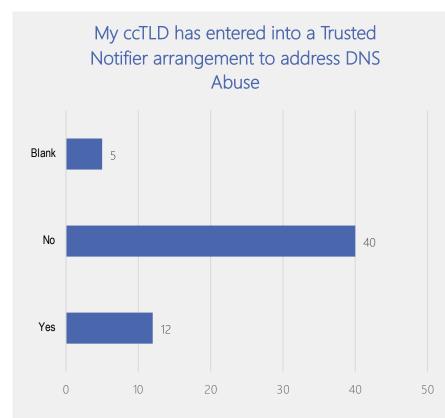

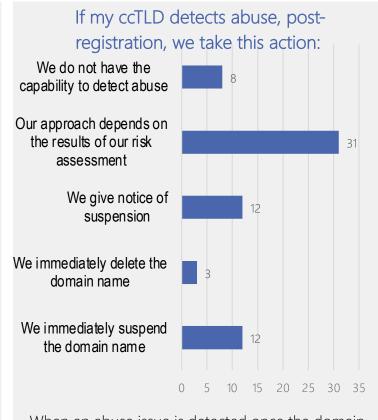

TRENDS ON DNS ABUSE MITIGATION

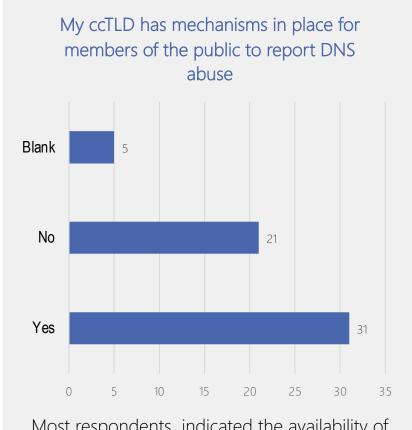

What do the numbers say?

The majority of the respondents have not entered into a Trusted Notifier arrangement.

When an abuse issue is detected once the domain name is already registered, the type of action for most respondents depends on the results of their internal risk assessment.

Most respondents indicated the availability of reporting mechanisms regarding DNS abuse for members of the public.

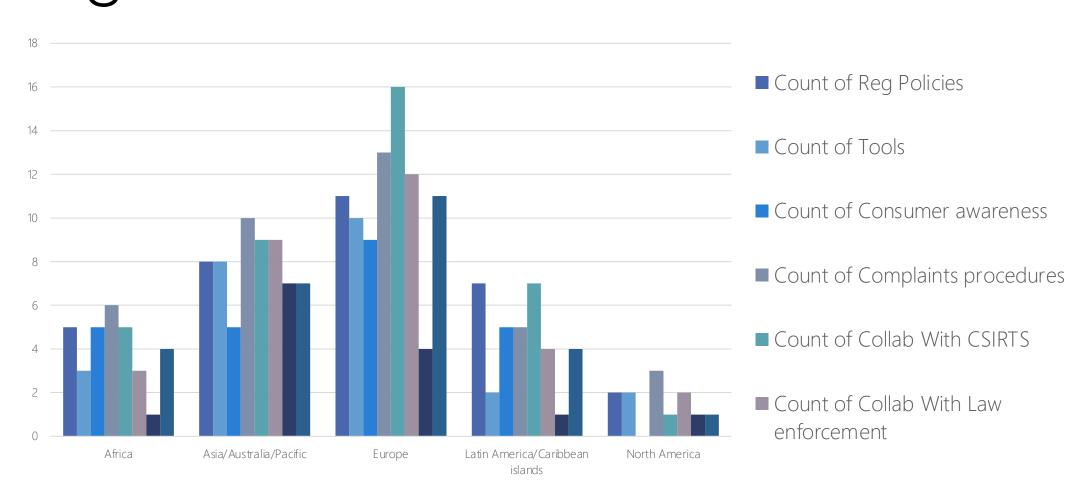

Common tools used by ccTLDs

Open Source	Commercial
DGArchive Shadowserver OpenPhish (Community) PhishTank	SURBL Spamhaus Anti-Phishing Working Group (APWG) Netcraft Sophos Recorded Future Malware Bytes Malware Patrol IQ Global (aggregation of feeds)

Mitigation by demographics: region

More to come!
