### **Process and Glossary**

- Bart Boswinkel previously sent out the schedule, Topic Paper and Glossary. Upcoming week the focus will be on the topic paper to prepare it for publication prior to the Seoul meeting for public comment. The glossary will be maintained and updated, however not posted for public comment. The methodology followed will be same as by the IDNC WG regarding the Fast Track.

### **Topic Paper**

- Purpose of Topic Paper is to determine the scope of overall policy through questions on identified topics.
- It was noted questions on fees and contracts regarding IDNs were not included in the Topic Paper. It was generally accepted these topics should be added to the Topic Paper.
- One issue that was added to the current Topic Paper in comparison with Topic Paper for Fast Track is the question of delegation, redelegation and retirement of IDN ccTLDs. For Fast Track, the answer was given due to a Board resolution but in this case needs to be addressed as part of the policy.
