The ccNSO is requested to appoint a working party, which will act as point of contact and organize the ccNSO activities pertaining to the ccNSO Organisational review.

9.1 Update on discussions SSR 2 and next steps.

For discussion

9.2 ccNSO Participation WHOIS- RDS review

In May 2017 the ccNSO informed the ICANN Board of directors that it did not consider itself to be in a position to nominate volunteers for the following reasons (see: <https://ccnso.icann.org/sites/default/files/file/field-file-attach/2017-05/sataki-to-crocker-02may17-en.pdf>):

- Unclear scope and process to define scope. The scope of the RDS /WHOIS 2 review has been defined.
- Concurrent processes relating to RDS /WHOIS.
- Impact of EU GDPR and its implementation. The ccNSO expected that the GDPR and its required implementation would have a major impact on RDS and hence on any review, implying that any review of current processes and policies would be affected by the GDPR.

The Chair of the ccNSO was approached by the RDS/WHOIS review team to consider participation (see background material), as the Review Team has developed the terms of Reference for the review (see background material).

Questions for discussion

Given current state of affairs with respect to RDS-WHOIS review should the ccNSO participate in the RDS/WHOIS 2 review process/ have all these concerns been addressed?

If the ccNSO intends to participate, who to nominate? Nominate candidates from the original call for volunteers? Other volunteers? (the original list of applicants can be found here:
