

Biography

Ai-Chin has been a part of TWNIC since 1998. She played a major role in creating the .tw/.台灣 registration guidelines and developing the coordination of the domain name registration system and the DN Dispute Resolution Services.

Additionally, as CDNC Co-Secretary, APTLD Board Member, and ccNSO Councilor, I am committed to serving our community. I have a bachelor's degree in political science and a master's degree in computer science.

Candidate Statement

I have been in the domain name industry for more than 20 years, focusing on policy-making and technology development for the .tw/.台灣 namespace and continue to maintain its good performance and impression of .tw/台灣 registry-TWNIC.

Now, I'm ready to leverage the knowledge and experience of DN I've learned to provide constructive feedback and contribution to the ccTLD community.

As we know, ccNSO members come from 5 regions, including Africa, Asia Pacific, Europe, Latin America/Caribbean, and North America.

As the chair of APTLD, I have accumulated a lot of experience in effective communication channels, grasping member needs, building member capabilities, and information sharing. I have professional skills, experience and a dynamic, enthusiastic personality which makes it easy for me to work with other members. Based on my experience, I will use the ccNSO platform to enhance collaboration, share resources, and achieve win-win among regional organizations to benefit all aspects of the ccNSO.

For the past three years, I have served as a ccNSO councilor wherein I took part in the ccPDP4 IDN WG and Variant Management subgroup in relation to IDN policy.

In both WGs, members are encouraged to share their experiences with other members and provide insights from their perspectives.

I've also taken part in the Internet Governance Liasion Committee (IGLC) and Meeting Program Committee (MPC), thereby learning how to identify hot topics, gather opinions, find appropriate speakers for specific regions, among many other experiences that I've shared with other members.

As ccNSO Councilors, we must possess a high-level perspective to develop our strategy, ensure actions are viable, and collaborate with other organizations; only then can we hold successful monthly council meetings.

I'd like to thank my community colleagues for recognizing my efforts and encouraging me to run for a second term in the ccNSO Council election.
