

## Jordan Carter

Asia Pacific Region Council Candidate  
October 2021

Nominated by ai-chin lu (.tw) and Lim Yatal (.kh)  
Seconded by Atsushi Endo (.jp)

### Seeking your support for a second term!

Dear colleagues!

I am an active current ccNSO Council member seeking your vote for a second term on the Council.

I would like to continue my new role as one of the Vice Chairs of the Council, so I can keep working on the growth and development of the ccTLD community in the ICANN environment.

Along with my other .nz colleagues, I will also be a link between our region and the Council.

If re-elected, I will focus on these areas of work:

- **Support Alejandra Reynoso (.gt)** in her work as ccNSO Council Chair, through being a loyal and effective Vice Chair.
- Helping the ccNSO **prioritise its work effectively**, by leading the expanded Council Triage committee and working on new and better ways to plan and report on the ccNSO's work.
- Supporting the implementation of the reforms arising from the **Accountability** work done during the IANA Stewardship transition. Icann is now in the implementation phase of this.

I will bring a knowledgeable, calm, fun, considered and collegial approach to my work on the Council, and deep links in many parts of our AP community and across ICANN.

When you first elected me in 2018, I planned to attend at least one APTLD meeting each year to help stay in touch. I did this in 2019 and 2020, but since last March the pandemic has made this harder, with so many online meetings. **I am hoping we can meet again in 2022!**

## My Background

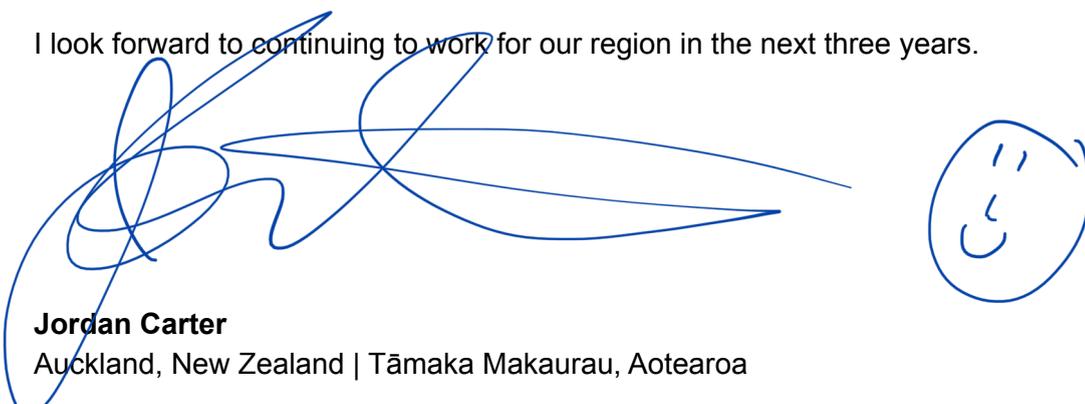

I first attended an ICANN Meeting in 2006 when InternetNZ hosted the Wellington meeting in New Zealand. I have been a regular attendee and participant at ICANN meetings since the Buenos Aires meeting in 2013.

I also served as the Secretariat of APTLD from 2004 to 2009, and got to know many in our ccTLD family from the Asia Pacific and beyond during those years.

I've been on the staff of InternetNZ in a variety of roles since 2003, and became Chief Executive in my current role in January 2018.

I've been involved in all aspects of operating our ccTLD over the years, and would love to speak with you about any aspects of the work we all do.

I look forward to continuing to work for our region in the next three years.

**Jordan Carter**
