   a. **Issue Report**
      Bart Boswinkel stated the issue report is being reviewed by [ICANN Org] general council. It will be circulated once completed.

      Meeting with GNSO Subpro WG (written update Giovanni Seppia). It was noted by the Chair of the ccNSO Council, there was “not much interest” from the GNSO, and at this point, [we] will wait to see if this SubPro group decides to have a uniform approach.

   b. **Progress Bylaw Change**
      The Chair of the ccNSO Council reminded all of a letter that was send to the Board. A response has been received from Maarten Bottterman (Chair of the ICANN Board of Directors) [was previously circulated to Council]. The letter states the Board is “looking into” this request and there may be additional clarification questions at some point.

6. **ccNSO Board Seat 12 Nomination process**
   The Chair of the ccNSO Council stated the Council continues to struggle with this process. The due diligence checks are taking longer than anticipated – according to the Bylaws, [we] are expected to nominate the director six months before he/she is expected to take their seat. It appears this process may need to start even earlier. The Guidelines Review Committee is currently reviewing the guideline.

   Joke Braeken reviewed the timeline.

7. **Work Plan discussion: setting ccNSO priorities & strategy**
   The Chair of the ccNSO Council noted there has been discussions at the ICANN level regarding the way priorities are set (priorities for each SO/AC). From the policy perspective, priorities are both ccPDPs (3 & 4). Also included are activities that are Bylaw mandated and things that ensure the ccNSO remains relevant.

   Bart Boswinkel walked the Council through a series of slides outlining priorities and workplan. He urged the Councilors to “own this slide deck”. They could go through the workplan, or even start fresh – it’s important for the Council to take ownership of this process.

   The Chair of the ccNSO Council added something substantial should be developed at the Council level.

   It was also suggested to organize a virtual Council workshop focused on this.
Action Item 161-02:
Secretariat to circulate Activity Overview and Work Plan documents to mailing list

Action Item 161-03:
Further discussion from Council (small group) on developing a way forward in “shaping ccNSO strategy” and possibly present to the community

Plan/coordinate a virtual ccNSO Council Workshop – prior to ICANN68

8. Update ECA & CSC
   a. ECA

      The Chair of the ccNSO Council also added based on the RSSAC review, they are pursuing the possibility of the RSSAC becoming a decisional participant (Bylaw change).

   b. CSC
      Alejandra Reynoso provided an update noting PTI met their Service Level Agreement at 100% for March. The CSC is waiting for approval of the amendment for the SLA.
