

Dear ccNSO Member

I respectfully request your support by casting your vote in the ccNSO's Council election for Pablo Rodriguez this October.

I would be honored to continue serving as ccNSO Council for the North American region. First, I want to thank my nominators: American Samoa (.AS), Canada (.CA), and American Virgin Islands (.VI) for their confidence in me. I strongly believe that you should follow their example and support my candidacy for various reasons:

- I have a proven record of accomplishment as both member and ccNSO Council that attest to my work and commitment
- Working collaboratively and collegially in the ccNSO and outside of it representing the ccNSO in the NomCom, and working with regional organizations (LACTLD, APTLD) helped me understand the needs of other groups and constituencies.
- As survivor of both hurricane Irma and Maria, I have been involved in promoting and participating in discussions related to the management of ccTLDs prior, during, and after a natural disaster.
- My combined experienced with the NomCom, the celebration of the only two (2) ICANN meetings in the Caribbean, and my participation with NextGen has helped me to begin a discussion with ROs on how to prepare future ICANN leaders.
- Most importantly, I believe in the ccNSO and its mission since its inception in 2003 when .PR became the fourth vote; thus, conforming the North American region.

**Please give your support to Pablo Rodriguez in this ccNSO Council election**
