Customer Service
Saara Punkka
The Big Change 5 Sept 2016

- Registry – Registrar model
  - No more direct customers
  - Very simple "accreditation" process
  - Law & Regulation
  - Expectation: 3 000 registrars

- No local presence required anymore
  - Anyone anywhere
The Big Change 5 Sept 2016

- No age limits
  » Currently .FI is probably the only "Not suitable for children" ccTLD
  » Not any more

- Domain parking will be accepted
  » Nameservers are not required anymore

- Domaining will be accepted
  » Currently it's not legal to register a .FI domain name in purpose to resell it later
  » Not any more
The Big Change 5 Sept 2016

- New names will be released for registration
  - Currently there is a black list containing:
    - Names of TLDs (like "COM.FI" or "EU.FI")
    - Names that express form of corporate (like "OY.FI")
    - Offensive words and words that provoke to commit a crime
  - Currently personal names (first+lastname) allowed only for the person in question
  - Not any more

- "Standard" EPP, registry lock, two factor authentication will be implemented
The Big Change 5 Sept 2016

- New rights to improve security
  - In case of serious suspicion of IT security breach, FICORA can
    - Monitor the traffic
    - Change DNS settings
    - Suspend the domain
  - Simplified process to revoke a domain name (based on trademark and company name protection)
  - Simplified process to transfer a domain name away from a typosquatter
The Big Change 5 Sept 2016

- New IT security related requirements to registrars
  - General requirements for every registrar
  - More detailed and more strict requirements for EPP users
  - FICORA has the right to audit these requirements
Secure
Reliable
