**Definitions (as outlined by the MSWG):**

**CROSS-COMMUNITY INTERACTION (XCI)** is defined as activities occurring between two (2) or more SO/AC groups.

**INTERNAL SO/AC WORK (IW)** includes work within one AC or SO (including stakeholder and constituency groups), or one AC or SO group and the Board or members of the Board.

**OUTREACH ACTIVITIES** are defined as activities conducted by SO/AC groups or cross-community groups with the intention of increasing awareness and interest in ICANN with individuals and organizations outside of the ICANN community.

- These activities are consistent with ICANN’s function and mission. In ICANN’s global multistakeholder model, policy is developed in a bottom-up fashion, a process that is enhanced and strengthened by reaching out to external communities, educating them about ICANN and encouraging them to participate if they wish.

**CAPACITY BUILDING** is defined as any learning effort (including education training and tools), and special emphasis on leadership training at Meeting C.
ICANN58 - COPENHAGEN
