- The Chair noted that the Progress Report would be proofread during this week and *Bart* added that the section about non-contentiousness would need extra attention since it is a delicate subject. The Chair further thanked Hiro Hotta for sending editorial suggestions to the report to the email list.
- *Bart* noted that it would be good if representatives from the ALAC could attend the ccNSO IDN session on Tuesday in Cartagena.
- The Chair noted that there will be an IDN Fast Track session on Monday in Cartagena and that it could be useful to hear about any difficulties ICANN had implementing the Fast Track project.
- *Bart* reported that he would send out a tentative schedule for upcoming Working Group calls. The Chair noted that the group would start discussing a way forward and upcoming issues regarding procedure during the Cartagena meeting.

Action: *Bart Boswinkel* to send out a tentative schedule for upcoming IDN PDP Working Group 1 calls.
