ccNSO Secretariat Working Group
Presentation to ccNSO Members
Cape Town

2nd December 2004

Chris Disspain
introduction

At the KL-meeting the ccNSO Council agreed to set up a working group on the ccNSO Secretariat and ccNSO fees

Main purpose:

a) to propose models for the ccNSO secretariat and
b) to examine the funding requirements of the ccNSO and to develop (for approval) funding models

WG formation: 8 ccNSO members of all regions:

- David Farrar (.nz)
- Dave Archbold (.ky)
- Ian Chiang (.tw)
- Dotty Sparks de Blanc (.vi)
- Mike Silber (.za)
- Bart Vastenburg (.nl)
- Jaeyoun Kim (.kr)
- Chris Disspain (.au)
Plan of action

1. agree the fundamentals
2. make a list of jobs
3. determine jobs secretariat vs. ICANN-support
4. based on job description, come up with a choice of models on the type of Secretariat
5. get a rough idea of funding requirement
6. calculate corresponding ccNSO fee requirement
7. suggest fee models to raise the funds
Plan of action

fundamentals

What the ccNSO independent secretariat does, members pay for or get ‘sponsored’ by a member.

What an ICANN staffer does for us, ICANN pays for.
List of jobs

general description:

• ensure provision of logistical support for daily functioning of ccNSO Council and members.

• as Issue Manager for a Policy Development Process or provide as assistance to Issue Manager:

• work through telephone, email, and person to person contact to ensure a harmonious working relationship between individual councilors, members, liaisons, ICANN staff and Board to facilitate the work the ccNSO undertakes.

# Proposed models

**Possible variations for secretariat:**

<table>
<thead>
<tr>
<th></th>
<th>identity</th>
<th>staff</th>
<th>assets</th>
<th>location</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>constant</strong></td>
<td>separate legal entity</td>
<td>staff on payroll</td>
<td>ownership</td>
<td>fixed</td>
</tr>
<tr>
<td><strong>variable</strong></td>
<td>ICANN constituency gathering</td>
<td>activities outsourced</td>
<td>facilities sharing</td>
<td>rotating</td>
</tr>
</tbody>
</table>
Proposed models

main possible models:

1. ccNSO establishes its own permanent secretariat at a fixed location and hires staff directly etc.

2. ccNSO contracts secretariat to a professional secretariat company, which is not involved with a ccTLD, based on price and quality.

3. ccNSO calls for bids from ccTLDs to host the secretariat for a defined period of time and selects based on price and quality
Proposed models

moving forward:
1. ccNSO: determine job description secretariat
2. ccNSO: choice of secretariat model
3. WG: work out secretariat details and examine the funding requirements
4. WG: develop (for approval) funding models
Interim arrangement

Volunteers to (help) set-up secretariat and provide interim support?

and / or

ICANN to help set-up secretariat and provide support?
thank you
