2 High-level de-Briefing on ccNSO Related Activities

The Chair informed the Council that she was approached by the Chair of the ICANN Board, Steve Crocker, regarding the ccNSO concerns about the ICANN budget. She noted that it seems as if the ccNSO views are taken into account.

Hiro Hotta reported that he had been working with the IDN Guidelines Working Group to post an updated version of the guidelines for public comments.

Byron Holland reported that the Finance Working Group developed sub groups to focus on different key areas, such as continuing the dialogue with ICANN on the allocation method of expenses. He further reported that the group would conduct a survey in early September on the ICANN services received and present the result in Dakar. Byron finally noted that the Finance Working Group is still waiting for some information regarding the budget that Juan Ojeda had committed to delivering.

3 Work Plan Update

The Chair noted that an updated version of the ccNSO Work Plan was distributed and thanked Bart Boswinkel for his work.

Bart explained that the new version of the Overview Update is a detailed plan and that both accomplished and open issues were added to it. He further explained that the Work Plan August document focuses on the way forward and will need reviewing at upcoming Council meetings.

Bart further asked the Councillors whether the current format of the Work Plan is suitable. The Councillors confirmed this and agreed that the format should be reviewed at the March meeting 2012.

14 November: Results announced

The Council agreed to appoint Gabriella Schittek election manager for the Council election process.

6 JIG Working Group Motion on Charter Extension

The Chair reported that the JIG Working Group had presented a Work Plan based on its willingness to extend its Charter. She further noted that the GNSO Council had agreed to extend the mandate of the JIG until 2012 accordingly and asked whether the ccNSO Council should do the same.

Byron Holland asked about the rationalisation for the extension. Bart Boswinkel replied that the JIG Working Group needs more time to conclude its work in the three key areas of discussion: IDN single characters, IDN variants and Universal acceptance of IDN TLDs.

The Chair asked the Councillors to pass a resolution on approving the extension of the JIG Working Group Charter and Timeline until 2012.

The resolution was proposed by Lesley Cowley.
The resolution was seconded by Becky Burr.

10 Results from the Call with ccNSO Appointed Board Members

a. Informal calls with ccNSO appointed Board members

The Chair asked the Councillors for comments to the informal Council Call that was held with ccNSO appointed Board members Chris Disspain and Mike Silber post the Singapore meeting and asked whether these calls should be a standard event subsequent to each ICANN meeting.

Several Councillors expressed that the call was much useful and that a regular occurrence of these calls would be appreciated. The Council further agreed that the calls should stay informal but open, and that the format should be review in the future.

Bart Boswinkel asked whether the Councillors would also like to have a briefing call prior to each ICANN meeting. The Chair expressed concern regarding the high number of conference calls this would result in and Bart offered to confer with Chris and Mike to get their views on the matter.

Action 66-03:
Bart Boswinkel to confer with Chris Disspain and Mike Silber to get their views on regular pre-ICANN meeting briefing calls.

b. Interaction with ICANN Board during the ICANN meeting

She suggested that the Council should identify two-three topics for the sessions with the Board and offered to liaise with Steve Crocker to find the best solutions.

Action 66-04:
The Chair to liaise with ICANN Board Chair Steve Crocker regarding the interaction between Board members and the ccNSO at ICANN meetings.

The Chair further reported that the ICANN Board is reviewing the Board work model for Fridays at ICANN meetings. She suggested that the Council should wait to hear more on the development regarding potential changes before taking any action.

11 Discussion on Extension of ICANN Board Conflict of Interest Rules

The Chair noted that Roelof Meijer had raised the issue of ICANN Board conflict of interest rules since former ICANN Chair Peter Dengate-Thrush was appointed executive chairman of Mind & Machines, a company actively involved in the new gTLD process.

Several Councillors expressed their views on the matter, such as the need for more robust guidelines for similar situations and also reflected the conflicted views of the community. The Councillors agreed that the issue is problematic and need further discussion.
