He further noted that the .ps application had been forwarded to the Council for approval and that the one from .cw would be shortly. He noted that since .an would be phased out in 2014 and .cw is run by the same registry it was agreed that .an would not apply for ccNSO membership after all.

3 GNSO Cross Community Working Group Principles

The Chair explained to the Council that the GNSO developed a series of suggested joint principles for cross-community working group and had invited other SOs and ACs to comment on these.

She further noted that she would like to add some principles on how to submit joint letters and statements.

Cheryl Langdon-Orr noted the importance of the charters being jointly drafted in cross-community working groups.

5.2 SOP Working Group

Roelof Meijer reported that the SOP Working Group had been in hibernation mode since the Costa Rica meeting and would resume its work again as soon as ICANN publishes its next draft of the ICANN FY 13 Operational Framework.

The Chair suggested that the SOP Working Group should consider providing Kurt Pritz with some feedback regarding the Strategic planning session in Costa Rica.

5.3 Framework of Interpretation Working Group (FoI)

Keith Davidson reported that the FoI Working Group report on Significantly Interested Parties (SIP) received no feedback during the public comment period and that he would contact the GAC to see if they would be willing to submit comments to the report.

5.4 Joint ccNSO/GNSO IDN Working Group (JIG)

Jian Zhang reported that the GNSO Council had approved the new JIG Working Group volunteers and that the group is now waiting for the Council to do the same. She also noted that the Working Group is planning to publish its initial report on universal acceptance for IDN TLDs and also to conduct a survey in order to find out how the community would like to approach this topic.

The Chair asked the Councillors for comments to the new JIG Working Group volunteers:

Daniel Kalchev, .bg
Mirjana Tasic, .rs
Ms. Zhou Linlin, .cn
Tan Yaling, .cn
Minjung Park, .kr
Baasansuren Burmaa, .mn
Siavash Shahshahani, .ir

Keith Davidson noted that since Tan Yaling had recently resigned from .cn it might not be appropriate for him to become a JIG member. Jian replied that she would look into the issue and get back to the Council with information.

Action 72-06:
Jian Zhang to look into Tan Yaling’s connection to .cn in order for the Council to be able to approve him as JIG Working Group member.

Jian further reported that since the Working Group in some cases now has multiple members from the same registry, the voting rights needs to be sorted out.

The Chair suggested that the Council should approve six of the seven volunteers and get back to the appointment of Tan Yaling once more information had been received. This was agreed and all the other volunteers were approved.

The Chair further asked the Secretariat and the JIG Working Group chairs to jointly come up with possible solutions to the voting issue and present them on the next Council call.
