The Secretariat to investigate the options for limiting the number of Working Group members for the UCTN Working Group without excluding anyone and advise the Council on the email list subsequent to the NETmundial meeting.
This action was completed.

The Chair noted that the ccNSO had received a member application from the Marshall Islands, .mh. He further noted that IANA had confirmed having no outstanding issues with .mh and therefore asked the Councillors to pass a resolution to approve them as ccNSO members.

3 Internet Governance Fora

3.1 Update
   · I* activities

   Peter Van Roste reported that CENTR had submitted its comments to the IANA transfer process, and noted that the timeline for comments was rather short. He further noted that the I* group had not had much activity subsequent to the NETmundial meeting, except for some communications between Regional Organisations on possible meetings to discuss the IANA transfer.
Victor Abboud reported that LACTLD had submitted its comments to the IANA transfer process.

5th Panel

The Chair reported that the 5th panel had published its final report and recommended the Councillors to read it. 4 IANA Stewardship Transition Process

4.1 Update Coordination Committee

The Chair reported that the GNSO and ALAC had started looking at a charter for a cross-community working group on the IANA transition. He noted that the ccNSO IANA Transfer Coordination Committee would look further into these plans and report back to the Council.

Action 95-01:

The Chair also noted that Fadi Chehadi had made a blog post on the IANA function transfer that had been circulated to the community.

5 ICANN Process to Enhance ICANN’s Accountability

The Chair reported that the announcement on the process to enhance ICANN’s accountability was made on 6 May and that the time frame to make initial public comments was very short, therefore it would not be possible to go through the normal ccNSO comment process.

Peter suggested that the ccNSO might want to consider making a separate comment to note the difficulty to meet the deadline. The Chair agreed.

The Chair asked the Councillors to pass a resolution to appoint a number of volunteers to draft a Council statement. He noted his regret that it would not be possible within this short timeframe to involve the entire community in the drafting.
The resolution was proposed by Keith Davidson. The resolution was seconded by Young-Eum Lee.

**Resolution 95-02:**
THE COUNCIL RESOLVED to appoint the following community members to form a drafting team to prepare a ccNSO Council Statement on ICANN’s proposal to enhance ICANN’s accountability process:

Paul Szyndler, .au
Mathieu Weill, .fr
Jorg Schweiger .de

The Council further requested Mathieu Weill (.fr) to chair this effort.

The Council also requested its Chair to submit a placeholder statement, noting that the time for submissions is very limited.

The resolution was passed unanimously.

**Action 95-02:**
The Chair to submit a placeholder statement to ICANN, noting that the time for submissions in the ICANN Enhanced Accountability Process is very limited.

The Chair encouraged the Councillors to share any suggestions of discussion points with the drafting team.

The Chair further reported that two or three representatives would need to be appointed for the working group initiated by ICANN on this topic. He also noted that Mathieu Weil had already put his name forward. The Chair asked the Secretariat to arrange a call for further volunteers.

The Council also agreed that the information around the process and scope of this new working group had not been satisfactory but that the ccNSO should still participate and that the Council therefore would convey its concerns to ICANN in addition to appointing the volunteers.

**Action 95-03:**
The Secretariat to call for volunteers to participate in the working group to work on the issue of enhancing ICANN’s accountability.
